# Securing the digital world

October 20th 2022

# Passion for Open Source

## Passion for Ory

Personal moments shape Ory:

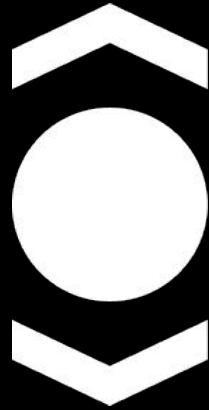

1. Early days: GNU Revision Control System
2. Opening up the IP4/6 software stack(SDN)
3. Build PAAS from scratch using Go, GitHub and ICQ
4. Building cloud security with IETF and open standards including Oauth, Oidc, and emerging standards such as Beyond Corp and Zanzibar

# Who is Ory

## What do we stand for?

1. Why Open Source?
2. People creators that matter
3. Core values
4. Infrastructure for the digital world
5. Community and ecosystem
6. CLI and developer productivity drives products
7. Problems solved with Ory add value
8. Everything "Ory" is now under one top brand

# Create the basis, add what developers want

1. Speed
2. Security
3. Managed
4. Scale
5. Data observability
6. AI/ML to improve security
7. Fair price, Compliance etc

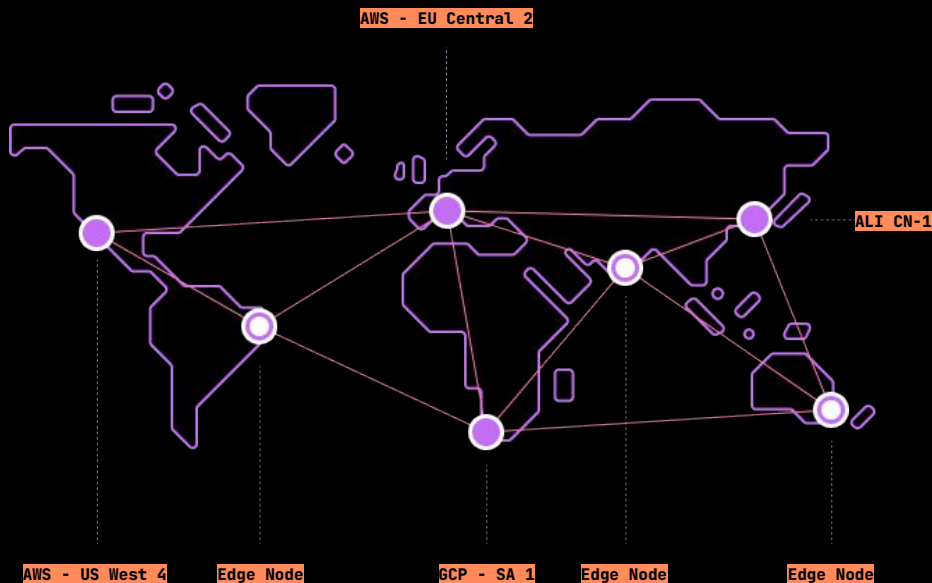

# The Ory Network (ory.net)

## End-to-End Security

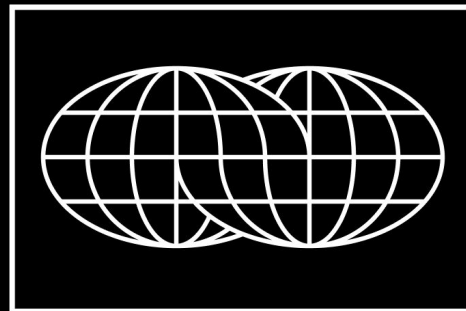

The fastest, most secure and worry-free way to use Ory Open Source

Identities  
Permissions  
Access  
Zero Trust

# Our Commitment: Securing the Digital World

1. Simple login and frictionless
2. Simplified programming today for 15 million JS developers
3. Socialise cloud security data with other players
4. Monitor and share information about threats
5. Provide access to critical data, innovate new models

# Securing the Digital World

Open source is more than just free software

Emerging infrastructure makes the Internet more secure

The force field for access to all applications improves security

Digitalisation accelerates on the back of a broad swath of open source  
"if its not open its not secure"

ML/AI can help secure everyone's digital world in the future

**Thank you  
for being  
here with us**
