Introducing the Ory Network

October 20th 2022

✉ aeneas@ory.sh / klaus@ory.sh

01

**Global end-to-end security
infrastructure built open
source.**

For humans, robots, servers.

01

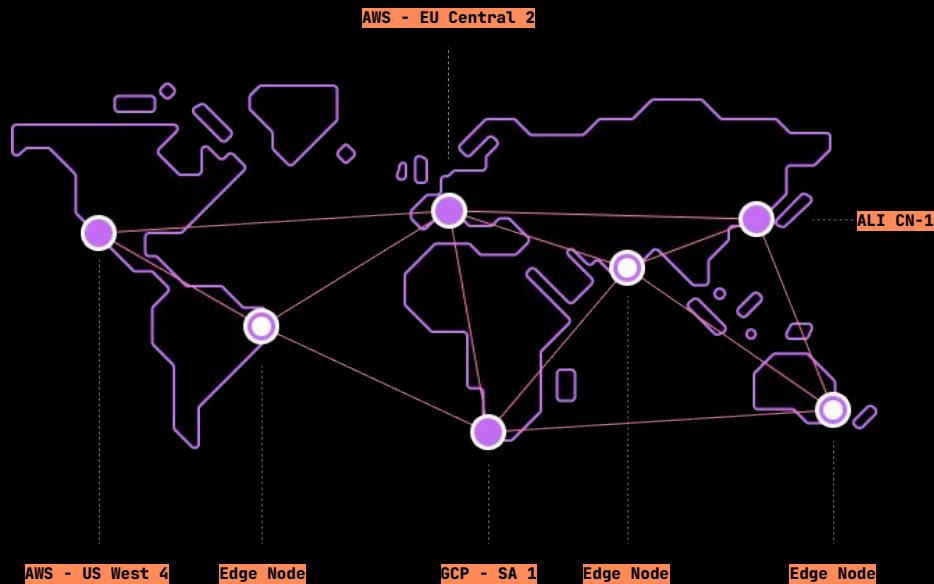

Sleep well

Ory is your end-to-end security network.

01

Fasten your seatbelts

It's faster
than your CDN.

01

Spend less on lawyers

Ory solves your PII data regulatory requirements.

01

Grow taller

Attract more customers. Not bots.

01

Ory Cloud

**The fastest, most secure and
worry-free way to use Ory Open
Source**

01

Ory Network

The fastest, most secure and worry-free way to use Ory Open Source

Identities

Permissions

Access

Zero Trust

The Ory Network

Frictionless Security

Beyond Passwords

Delight customers and win their trust with secure passkey and multi-factor login.

Defense in Depth

End-to-End Platform Security

Verify access all to data, services and apps. All the time.

Trust at Scale

Serve global, store local

Zero-maintenance. Low latency. High availability. Secure & compliant storage.

02

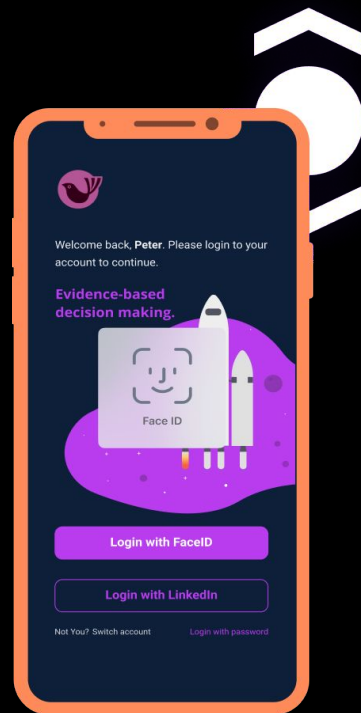

What's new?

Passwordless

2+ Billion passwords were leaked in 2021. **Passkeys** are the future.

Support Biometrics, Authenticator Apps, Hardware Keys now. The Ory Network is ready.

Permissions

Is Jane allowed to watch the cat video? May Steve refund orders?

Control who can access and do what.
At internet scale.

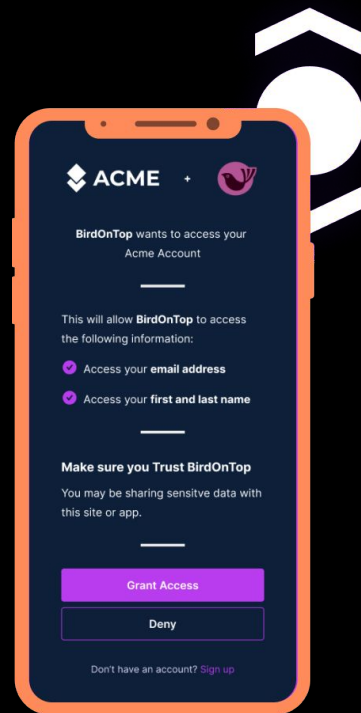

```
class File implements Namespace {  
  related: {  
    parents: (File | Folder)[]  
    viewers: (User | SubjectSet<Group, "members">)[]  
    owners: (User | SubjectSet<Group, "members">)[]  
  }  
  permits = {  
    view: (ctx: Context): boolean =>  
      this.related.parents.traverse((p) =>  
p.permits.view(ctx)) ||  
      this.related.viewers.includes(ctx.subject) ||  
      this.related.owners.includes(ctx.subject),  
    edit: (ctx: Context) =>  
      this.related.owners.includes(ctx.subject),  
  }  
}
```

OAuth2 Access & OpenID Connect

Be the platform your competitor is not.

Your Data and APIs are your lifeblood.

Build API security like the tech giants.

Machine to Machine

Your devices and services are spread across the world. The safe enterprise network is gone.

Go zero-trust. Secure and verify all communication. Across your entire stack.

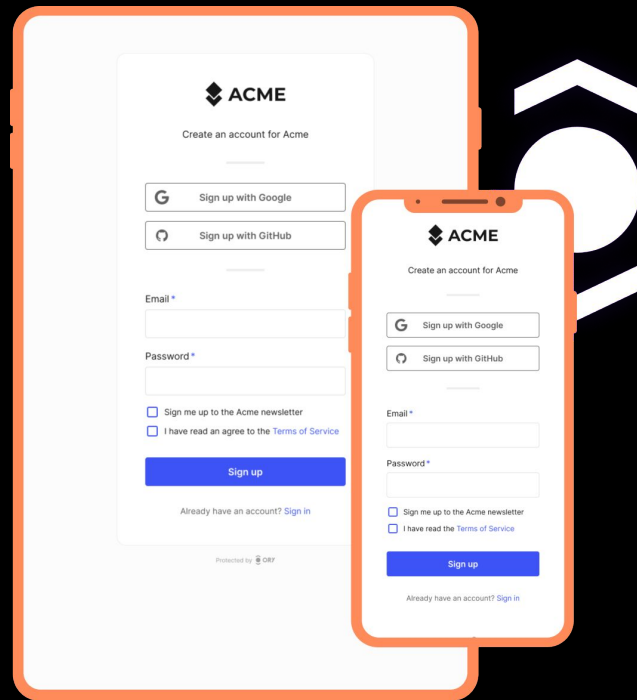

Account Experience

We built elegant login & self-service account pages - so you don't have to.

Just plug it into your site and get started in minutes.

<https://<your-ory-domain>/ui/welcome>

Ory Elements

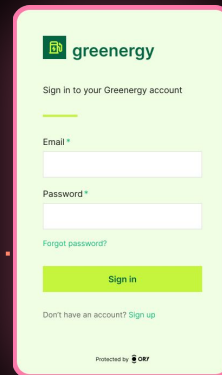

Build “My Account” in pixel-perfect. It’s crucial for your brand experience.

Modular and themeable components for React, Next, Express and more.

github.com/ory/elements

```
import { UserAuthCard } from
"@ory/elements";
LoginPage = () => {
  const flow = getFlowFromOry()
  const onSubmitCallback = () => ///  

  return (
    <UserAuthCard flow={flow}
      flowType={"login"}
      additionalProps={{ /* urls... */ }}
      title={"Login to Acme"}
      onSubmit={onSubmitCallback}
    />
  )
}
```

Living on the Edge

Light does not travel as fast as you may think.

We're moving Ory closer to your users for the fastest secure experiences possible.

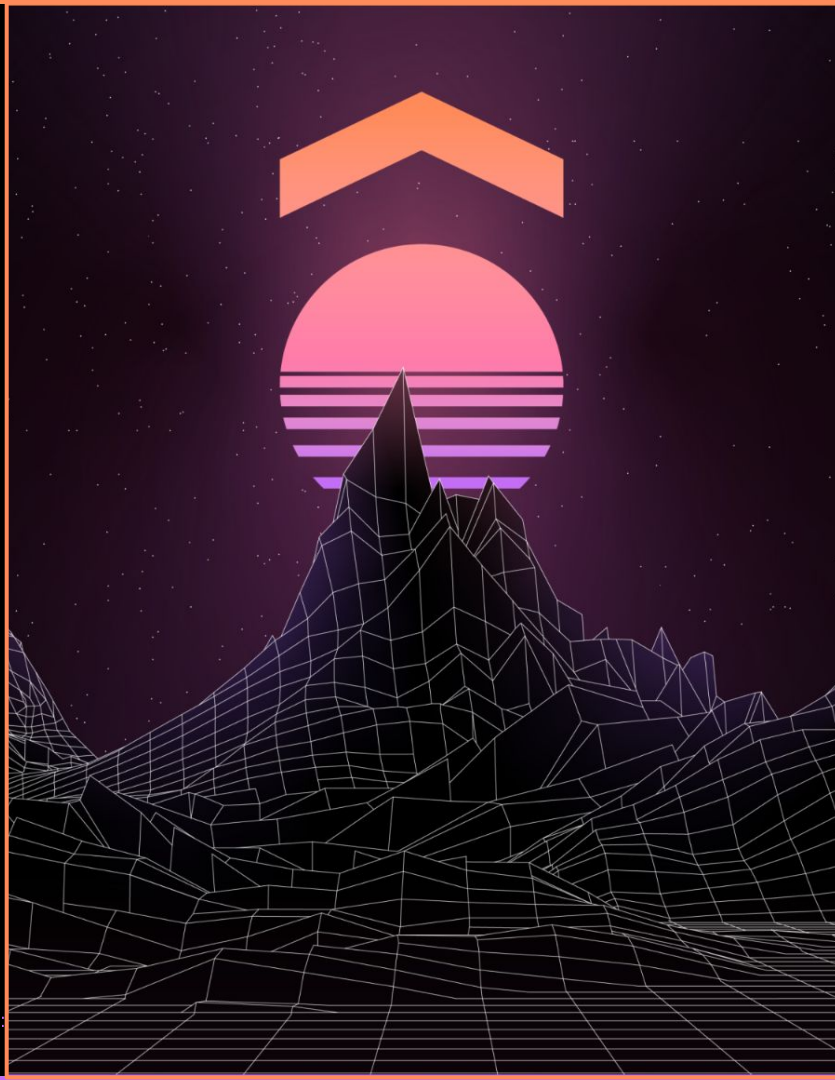

And so much more...

- CLI simplicity & coverage
- Ory Console support
- Passwordless login with WebAuthn
- Multi-Factor Auth on mobile
- Configurable password policy
- Identity import with credentials
- Blocking Webhooks
- Session Metadata
- Ory Permission Language
- gRPC for Permissions
- OIDC Dynamic Client Registration
- OAuth 2.0 JSON Web Token Exchange

The future

- * **Global scale, local data**
- * **Developer productivity**
- * **Intelligent security**

You're awesome
