Agenda

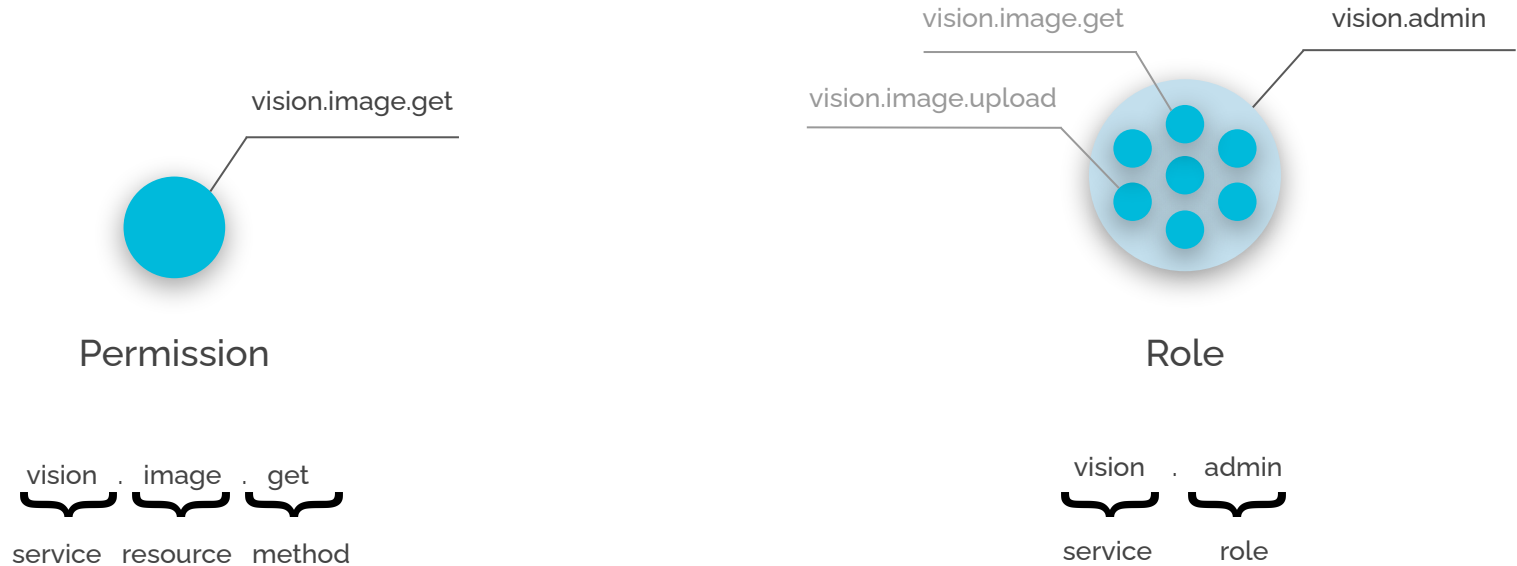

Welcome to this presentation!

- RBAC
- Google IAM Policies
- Hydra
- Kratos
- gRBAC
- Identity-Aware Proxy
- Requests Flow
- Q&A

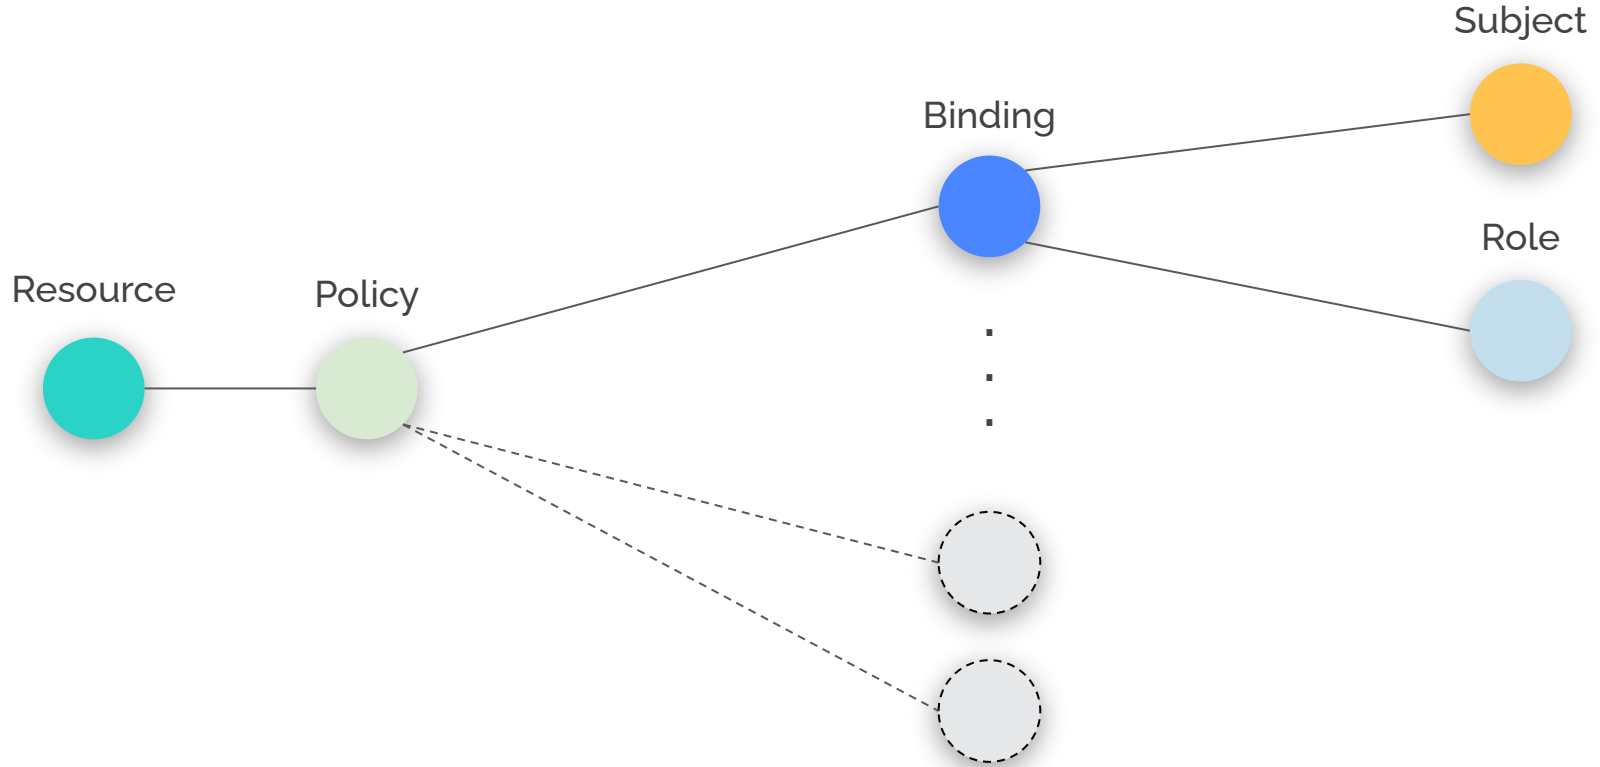

What is RBAC?

Role-Based Access Control

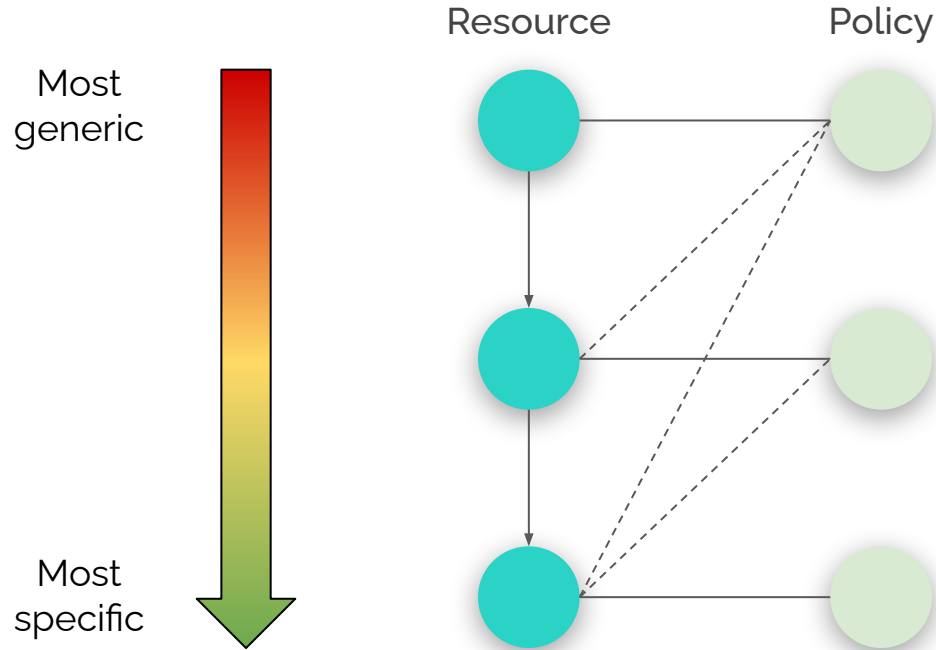

What are Google IAM Policies?

Understanding IAM Policies and Bindings

What are Google IAM Policies?

Understanding IAM Policies Inheritance

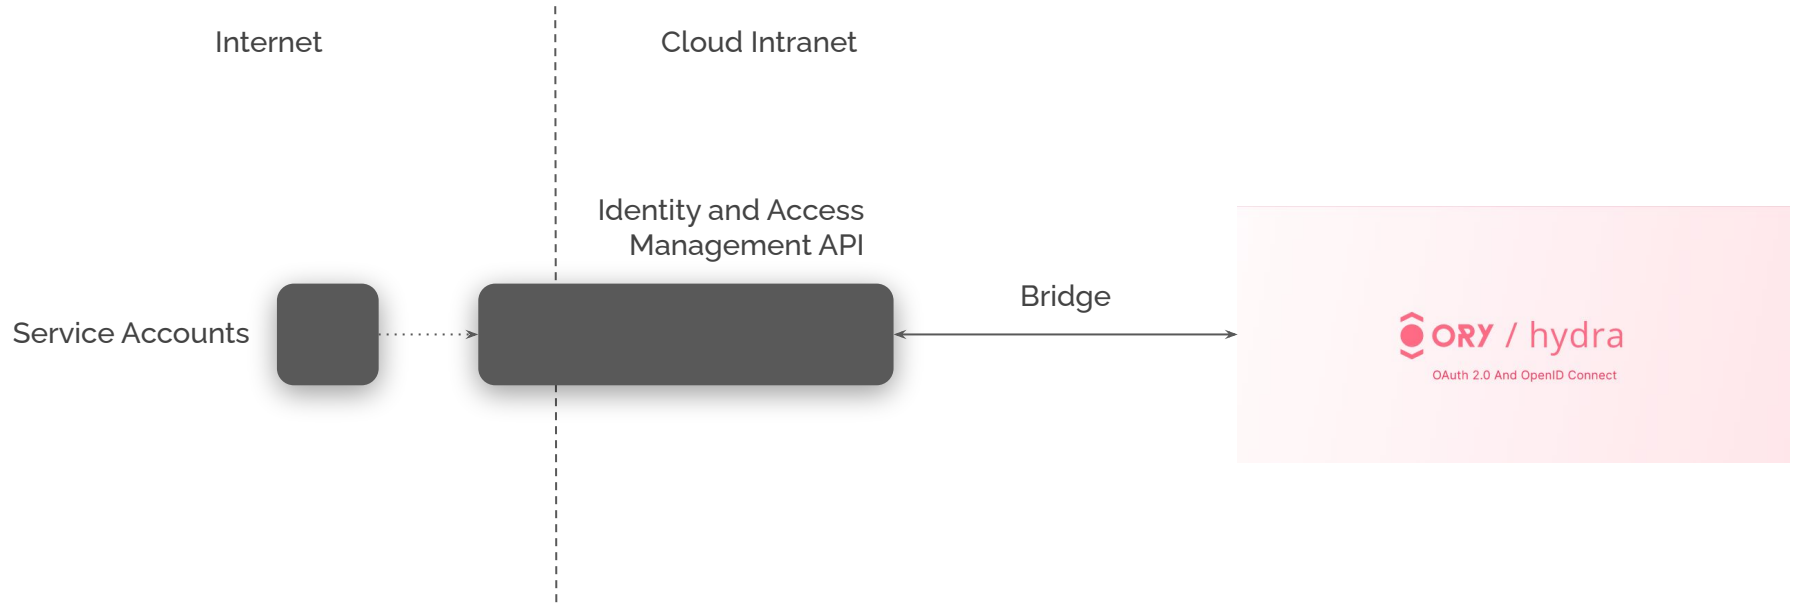

Hydra

OpenID Connect and OAuth Provider

ory/hydra

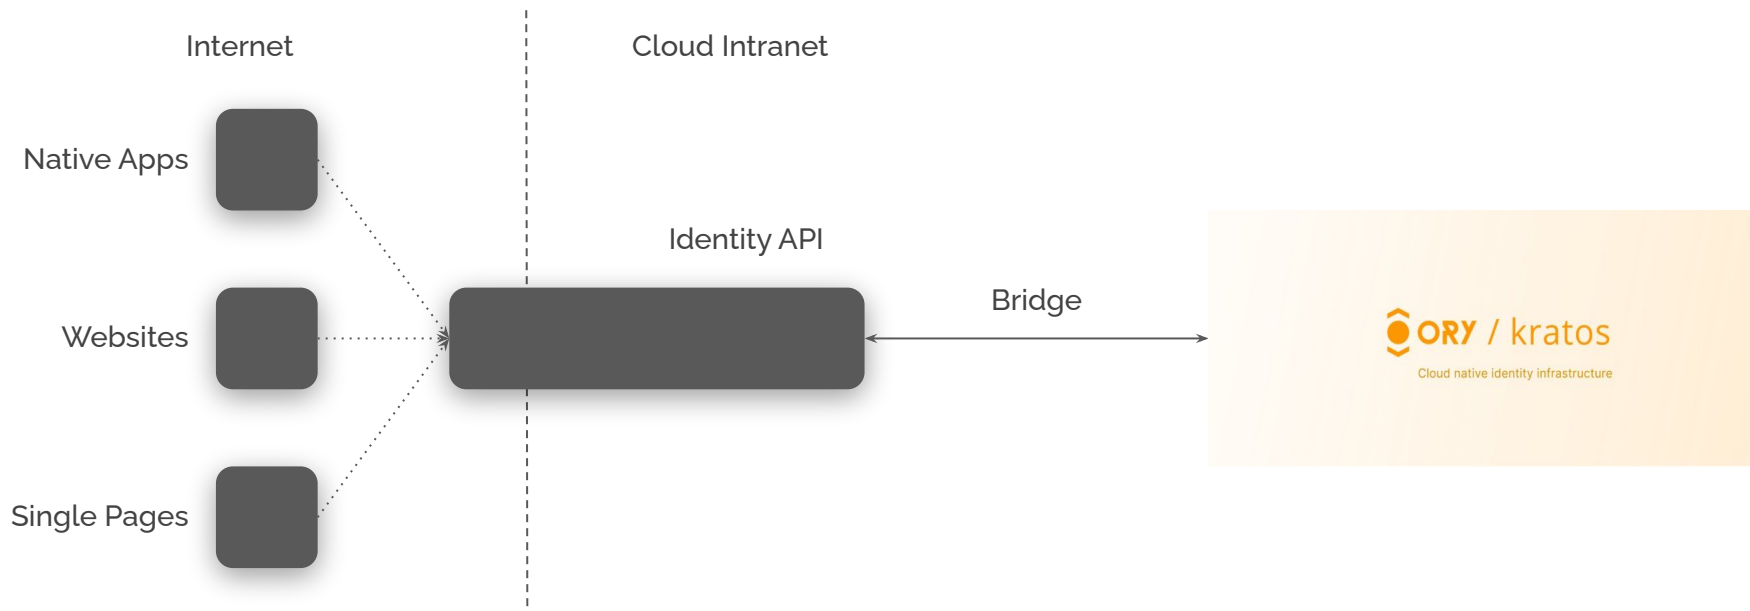

Kratos

Identity and User Management System

ory/kratos

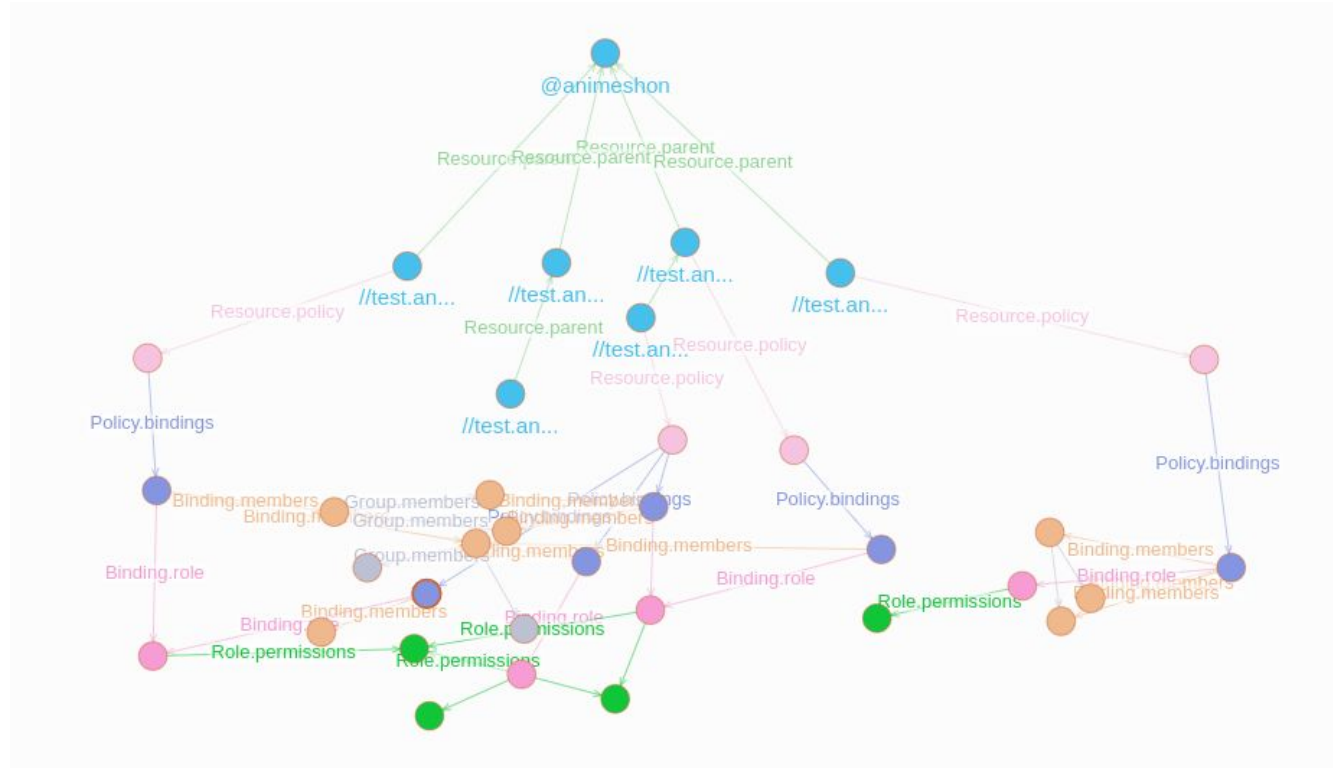

gRBAC

Graph Role-Based Access Control

[grbac/grbac](https://grbac.grbac.org)

gRBAC

Understanding Dijkstra's Shortest Path Algorithm

[grbac/grbac](#)

Resource

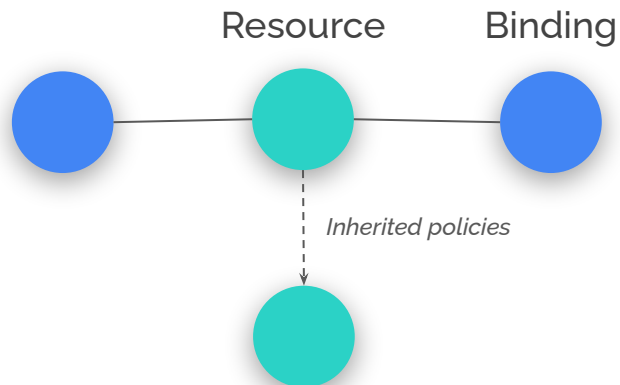

gRBAC

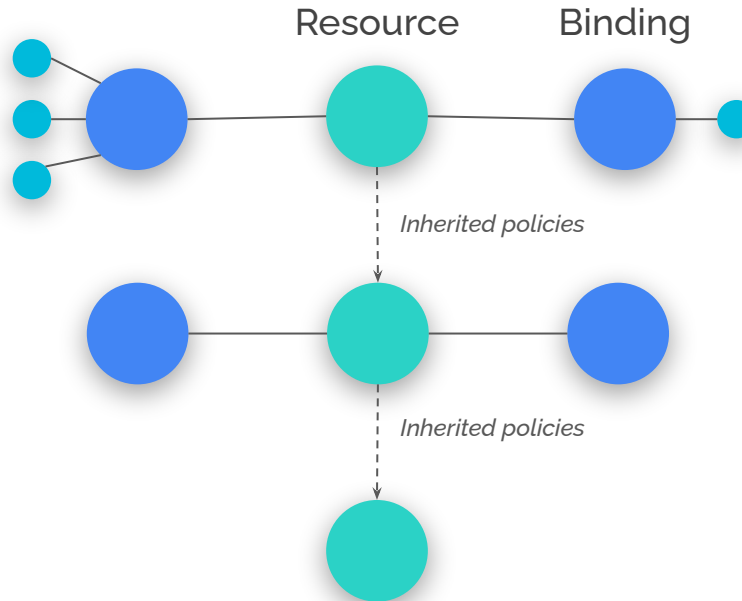

Understanding Dijkstra's Shortest Path Algorithm

[grbac/grbac](https://github.com/grbac/grbac)

Understanding Dijkstra's Shortest Path Algorithm

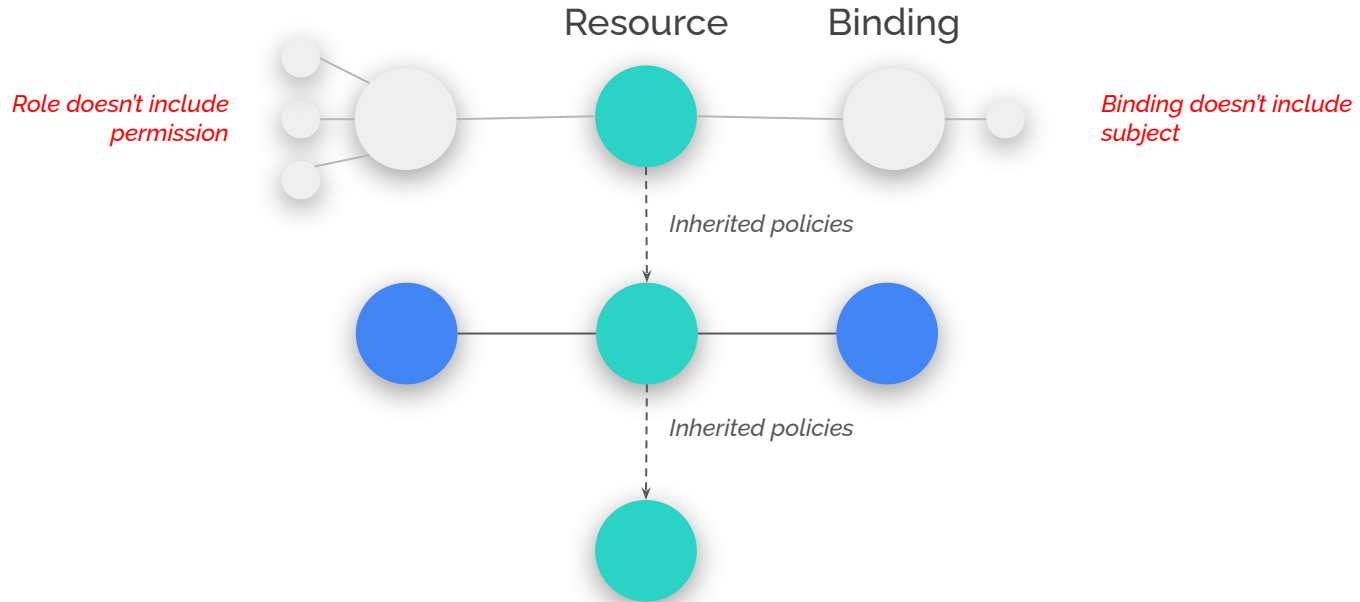

gRBAC

Understanding Dijkstra's Shortest Path Algorithm

grbac/grbac

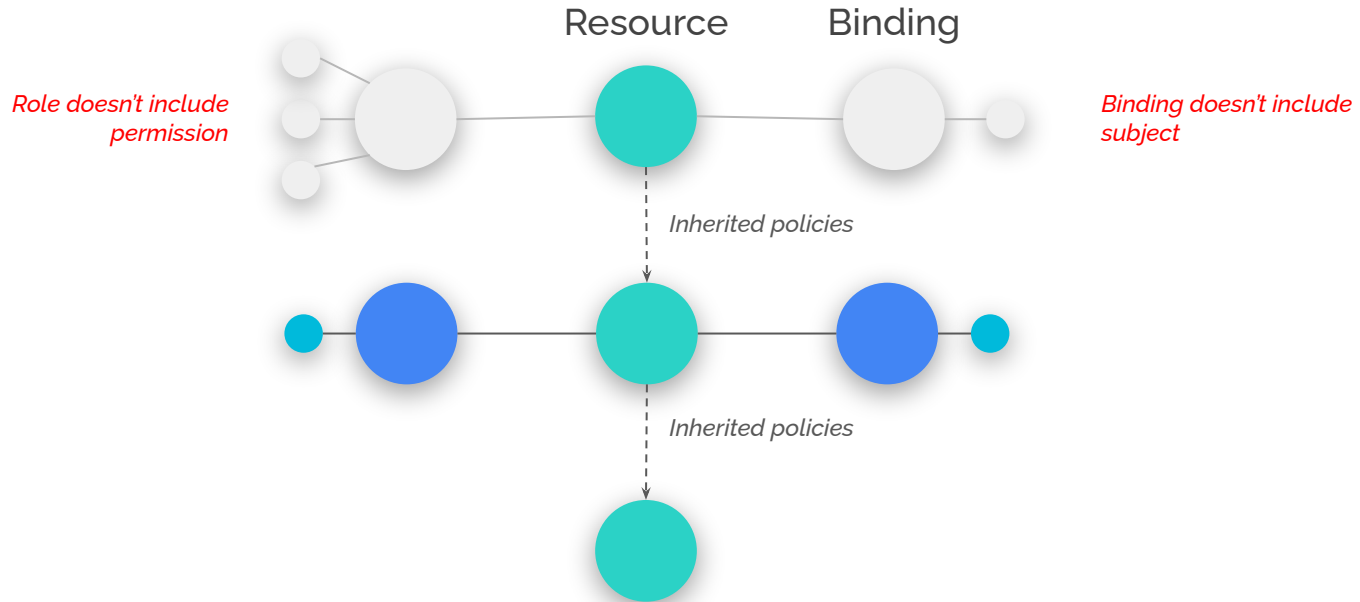

gRBAC

Understanding Dijkstra's Shortest Path Algorithm

grbac/grbac

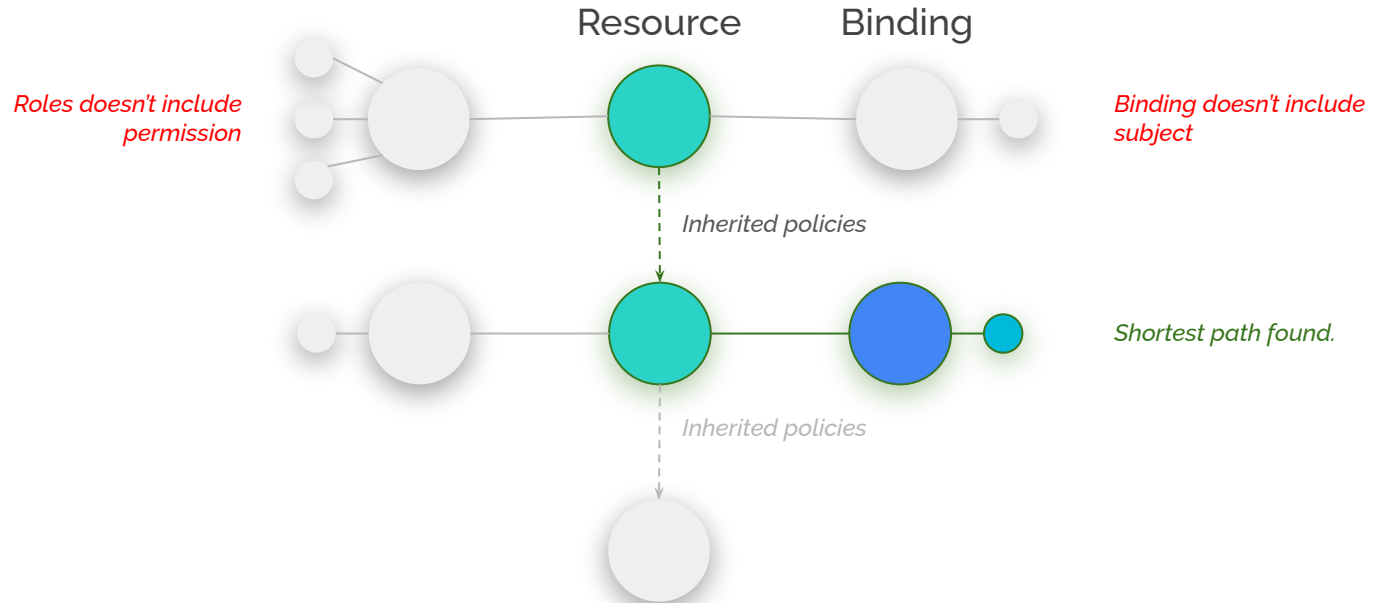

gRBAC

Understanding Dijkstra's Shortest Path Algorithm

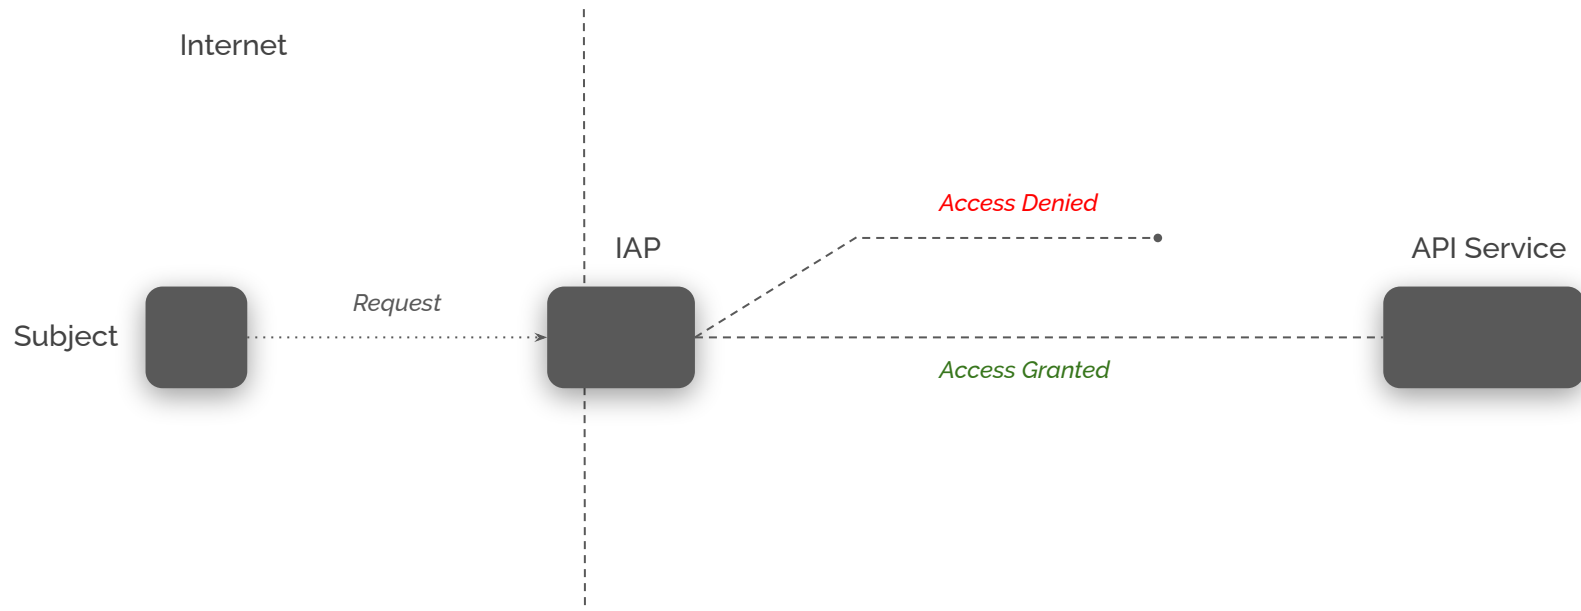

grbac/grbac

IAP

Animeshon Identity-Aware Proxy

IAP

Animeshon Identity-Aware Proxy

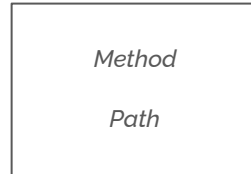

General Headers

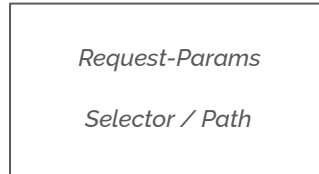

Authentication Headers

REST Headers

gRPC Headers

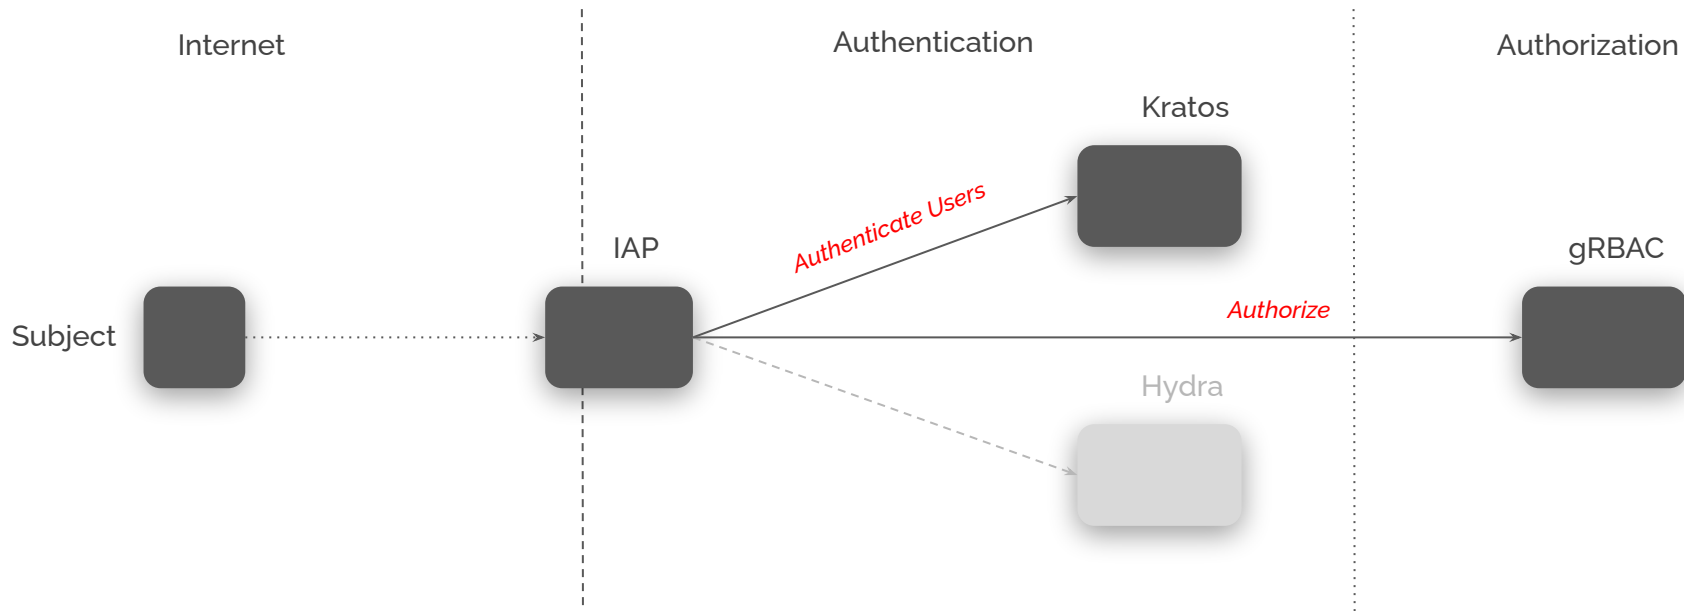

Supported Protocols

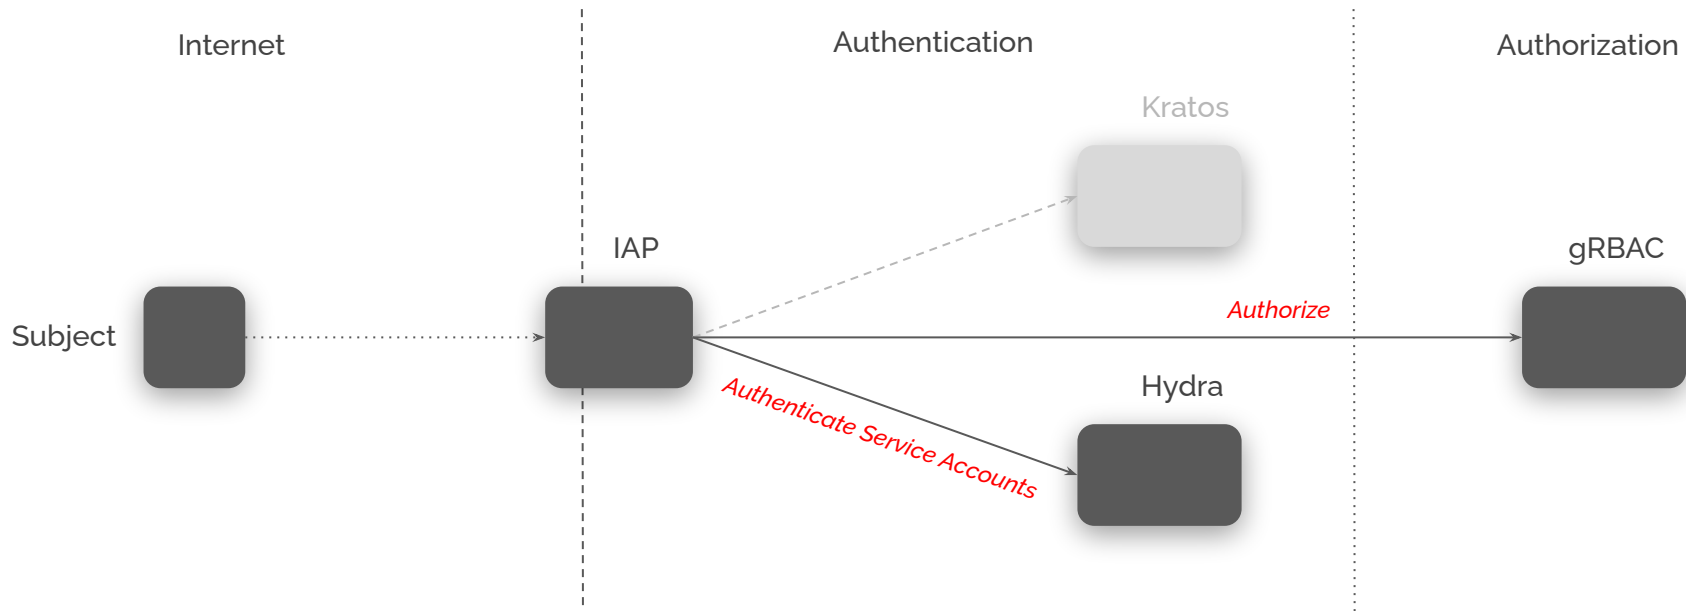

Requests Flow

An overview of a real end-to-end flow

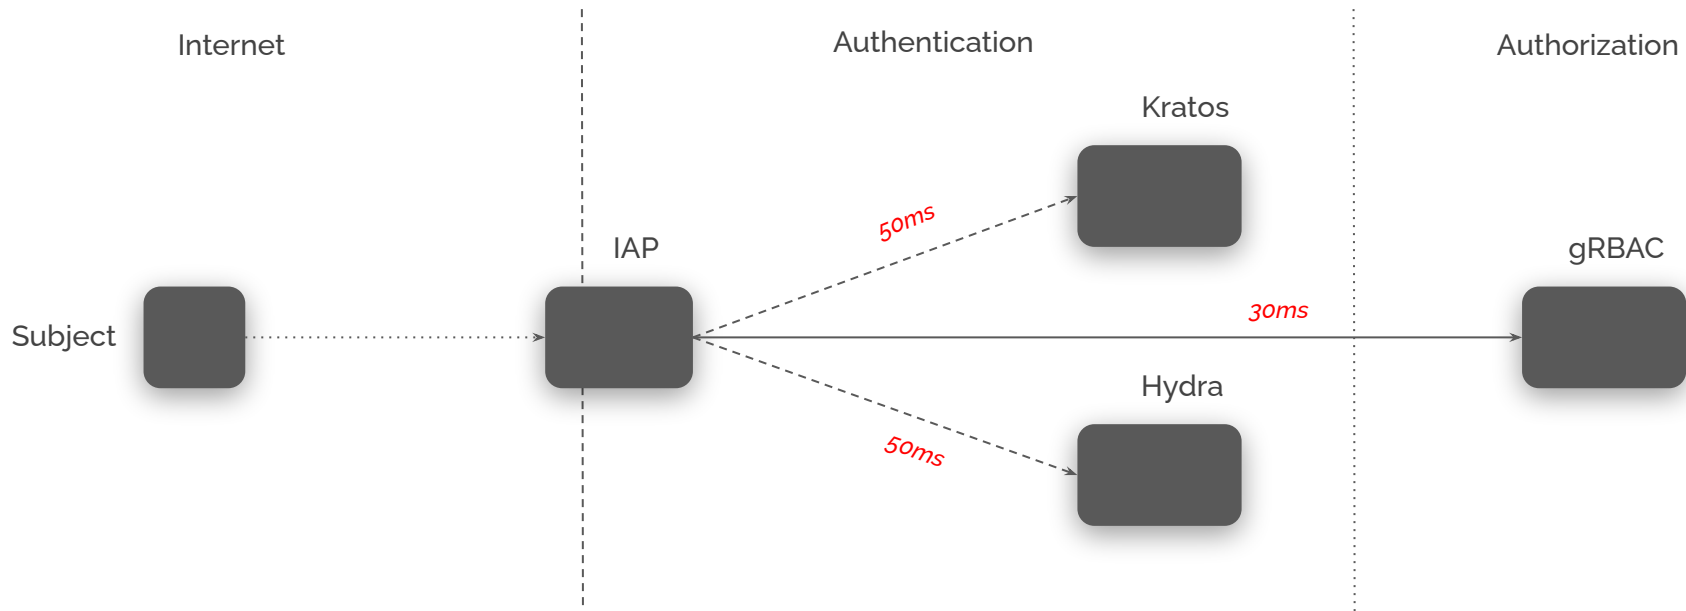

Requests Flow

An overview of a real end-to-end flow

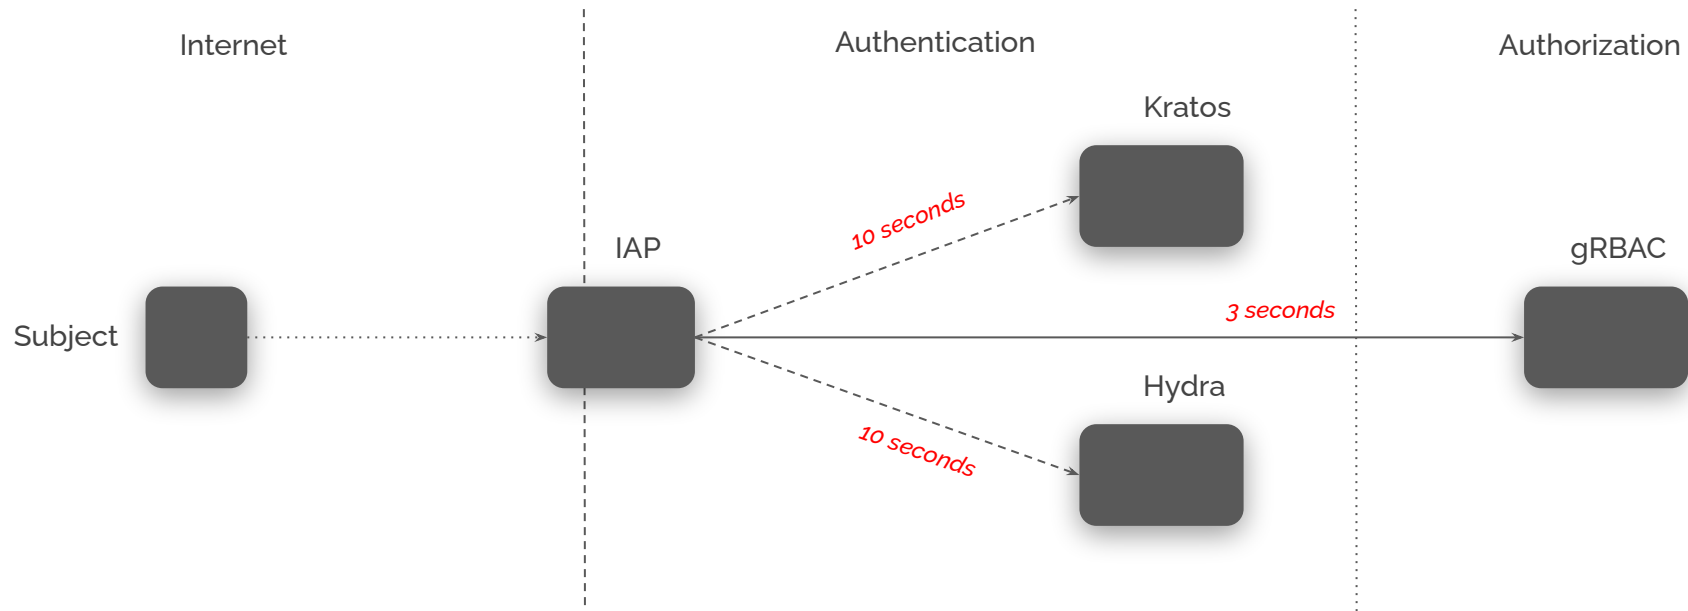

Requests Flow

An overview of a real end-to-end flow

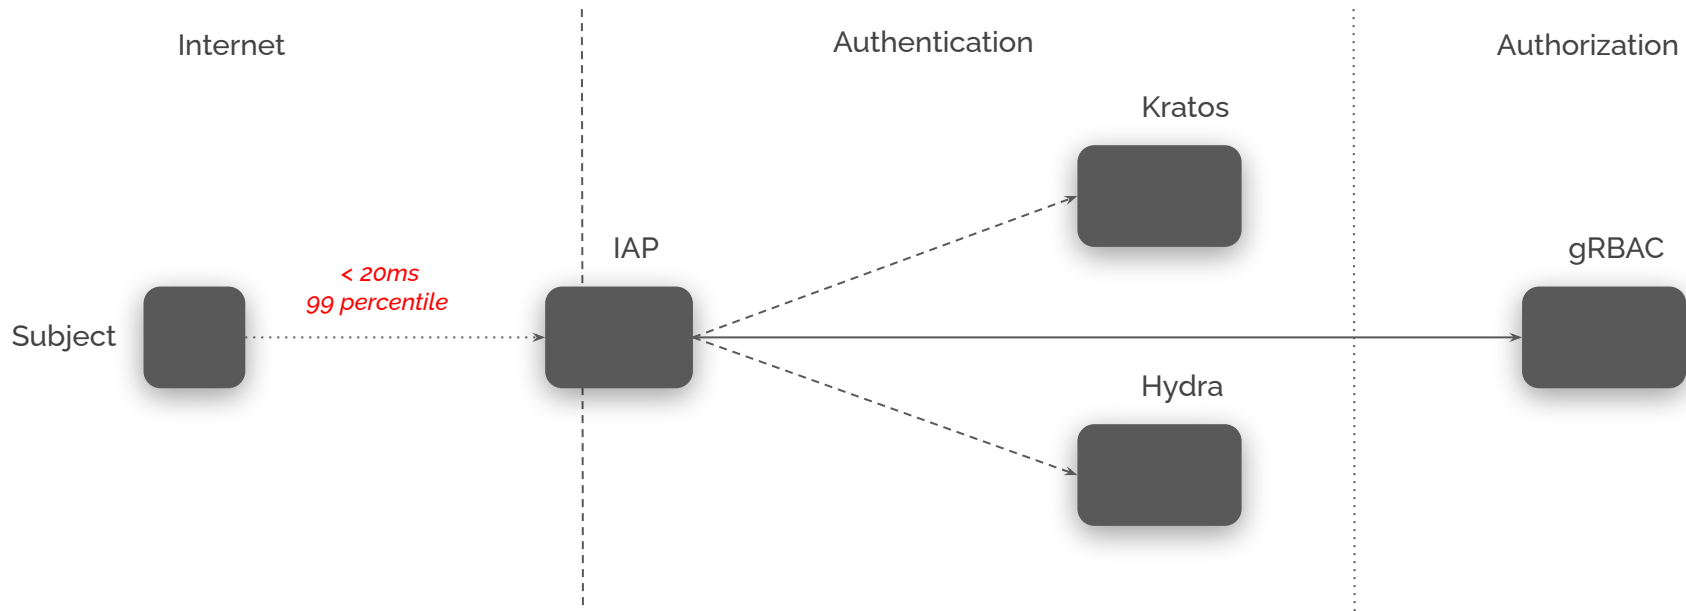

Requests Flow

An overview of a real end-to-end flow

Requests Flow

An overview of a real end-to-end flow

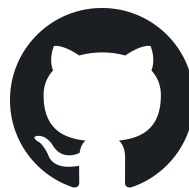

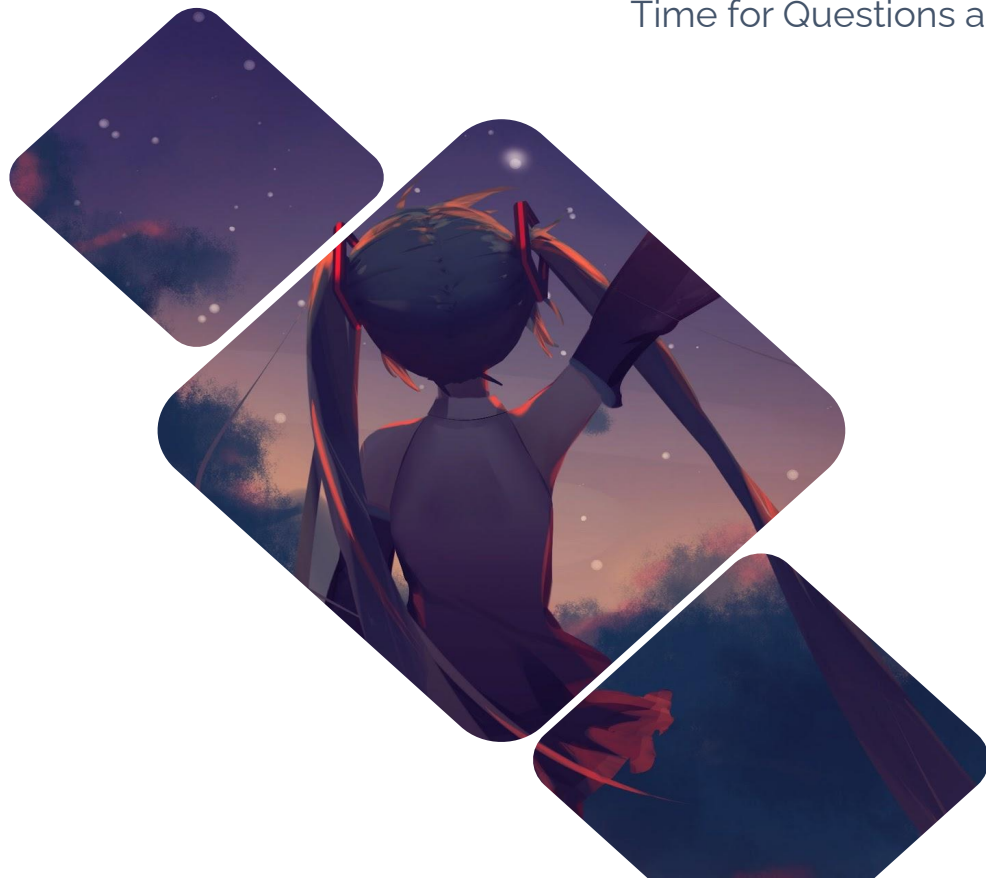

Thank you!

Time for Questions and Answers!
